Executive Summary **E-1**

Section 1: Background **1-1**
1.1 What Is a Watershed and Why a Plan? 1-1
1.2 Brief History of the Tookany/Tacony–Frankford Watershed 1-4
1.3 Watershed Description and Demographics 1-5
1.4 Comprehensive Planning and the Regulatory Framework 1-14
1.4.1 NPDES Stormwater Rules 1-15
1.4.2 Act 167 Stormwater Management 1-16
1.4.3 Act 537 Sewage Facilities Planning 1-18
1.4.4 Impairment Designations and the TMDL Process 1-19
1.4.5 Combined Sewer Overflow (CSO) Control Policy 1-22
1.5 Overlapping Aspects of Regulatory Programs 1-26
1.6 Other Relevant Programs 1-29
1.6.1 Rivers Conservation Program (RCP) 1-29
1.6.2 Summary of Other Programs 1-30
1.7 Regulatory Agency and Stakeholder Partnerships 1-31

Section 2: Integrated Watershed Management for the TTF Watershed **2-1**
2.1 General Planning Approach 2-1
2.2 The Tookany/Tacony-Frankford Planning Approach 2-4
2.2.1 Existing Data 2-5
2.2.2 Monitoring and Field Data Collection 2-10
2.2.3 Watershed Modeling 2-15
2.2.4 Goals and Objectives 2-16
2.2.5 Data Analysis and Indicator Development 2-17
2.2.6 Development and Screening of Management Options 2-19
2.2.7 Development of Target Approach (A, B, C) 2-20
2.2.8 Implementation Plan 2-23

Section 3: Goals and Objectives **3-1**
3.1 Stakeholder Goal Setting Process 3-1
3.2 Consolidated Watershed Planning Goals and Objectives 3-3
3.3 Goals Prioritization 3-5

Section # **Page #**

Section 4: Watershed Indicators: TTF Study Results 4-1
4.1 The Land Use and Stream Health Relationship 4-2
4.1.1 Indicator 1: Land Use and Impervious Cover 4-2
4.2 Flow Conditions and Living Resources 4-6
4.2.1 Indicator 2: Streamflow 4-6
4.2.2 Indicator 3: Stream Channels and Aquatic Habitat 4-8
4.2.3 Indicator 4: Restoration and Demonstration Projects 4-10
4.2.4 Indicator 5: Fish 4-14
4.2.5 Indicator 6: Benthic Macroinvertebrates 4-18
4.3 Water Quality 4-21
4.3.1 Indicator 7: Effects on Public Health (Bacteria) 4-21
4.3.2 Indicator 8: Effects on Public Health (Metals and Fish Consumption) 4-23
4.3.3 Indicator 9: Effects on Aquatic Life (Dissolved Oxygen) 4-26
4.4 Pollutants 4-29
4.4.1 Indicator 10: Point Sources 4-29
4.4.2 Indicator 11: Non-point Sources 4-41
4.5 Stream Corridor 4-44
4.5.1 Indicator 12: Riparian Corridor 4-44
4.5.2 Indicator 13: Wetlands and Riparian Woodlands 4-46
4.5.3 Indicator 14: Wildlife 4-53
4.6 Quality of Life 4-56
4.6.1 Indicator 15: Flooding 4-56
4.6.2 Indicator 16: Public Understanding and Community Stewardship 4-60
4.6.3 Indicator 17: School-Based Education 4-69
4.6.4 Indicator 18: Recreational Uses and Aesthetics 4-71
4.6.5 Indicator 19: Local Government Stewardship 4-74
4.6.6 Indicator 20: Business and Institutional Stewardship 4-77
4.6.7 Indicator 21: Cultural and Historic Resources 4-79

Section 5: Problem Definition and Analysis 5-1
5.1 Visual Stream Assessment (Aesthetics and Narrative Criteria) 5-2
5.2 Streamflow Analysis 5-4
5.3 Water Quality Analysis 5-5
5.3.1 Water Supply 5-7
5.3.2 Recreation and Fish Consumption 5-11
5.3.3 Human Health 5-12
5.3.4 Aquatic Life 5-13
5.4 Potential Problem Parameter Summary 5-17
5.5 Stream Ecology 5-18
5.6 Wetlands Assessment 5-20
5.7 Potential Problem Parameters and Planning Implications 5-23

Section # **Page #**

Section 6: Causes of Impairment 6-1
6.1 Trash and Dumping 6-1
6.2 Erosion, Sediment Accumulation, and Flow Variability 6-2
6.3 Instream Sewer Odors 6-2
6.4 Lack of Healthy Riparian Habitat 6-2
6.5 Poor Instream Habitat and Biological Impairment 6-3
6.6 Impaired Wetlands 6-4
6.7 Water Quality Concerns (Metals, TSS, Fecal Coliform, DO) 6-4

Section 7: Development and Screening of Management Options 7-1
7.1 Menu of Options 7-1
7.1.1 Target A: Dry Weather Water Quality and Aesthetics 7-2
7.1.2 Target B: Healthy Living Resources 7-3
7.1.3 Target C: Wet Weather Water Quality and Quantity 7-5
7.2 Screening of Options 7-11
7.2.1 Clearly Applicable Options: Targets A, B, and C 7-13
7.2.2 Results of Target C Screening Based on Watershed Characterization 7-14
7.2.3 Detailed Evaluation of Target C Structural Options 7-16
7.3 Recommended Options 7-24

Section 8: Implementation Guidelines 8-1
8.1 Target A: Dry Weather Water Quality and Aesthetics 8-6
8.1.1 Regulatory Approaches 8-7
8.1.2 Public Education and Volunteer Programs 8-13
8.1.3 Municipal Measures 8-20
8.1.4 Recreational and Cultural Resources 8-35
8.1.5 Monitoring and Reporting 8-38
8.2 Target B: Healthy Living Resources 8-39
8.2.1 Overview: Stream and Riparian Corridor Improvement 8-40
8.2.2 Channel Stability and Aquatic Habitat Restoration 8-43
8.2.3 Lowland and Upland Restoration and Enhancement 8-49
8.2.4 Monitoring and Reporting 8-58
8.3 Target C: Wet Weather Water Quality and Quantity 8-59
8.3.1 Regulatory Approaches 8-61
8.3.2 Public Education and Volunteer Programs 8-77
8.3.3 Municipal Measures 8-78
8.3.4 Stormwater Management 8-98
8.3.5 Monitoring and Reporting 8-112

Section 9: Cost and Institutional Analysis 9-1
9.1 Estimated Cost of Implementation 9-1
9.2 Distribution of Costs by Political Boundary 9-6
9.2.1 Distribution of Costs by County 9-6

9.2.2 Distribution of Costs by Municipality 9-7
9.3 Institutional Analysis 9-9
9.3.1 PA DEP Role 9-9
9.3.2 PWD Role 9-9
9.3.3 Municipal Role 9-10
9.3.4 County Role 9-10
9.3.5 Non-Government Organization Role 9-11
9.3.6 Land Owners' Role 9-12

Appendices

Appendix A: Glossary of Terms
Appendix B: Tacony-Frankford River Conservation Plan Public Survey
Appendix C: Tookany/Tacony-Frankford Watershed Partnership Bylaws
Appendix D: Potential Sources of Funding
Appendix E: TTFIWMP Implementation Plan Summary (2006-2011)
