Act 167 Stormwater Management Plan for Tookany/Tacony-Frankford Watershed...

The Montgomery County Planning Commission and Philadelphia Water Department have jointly received funding for development of a Pennsylvania Act 167 Stormwater Management Plan for the Tookany/Tacony-Frankford Creek Watershed. Through cooperative work, a storm water management is currently under development should be completed by fall, 2008.

Benefits:

- Once completed, the new stormwater requirements will affect both new development and redevelopment. Over time, this is expected to greatly reduce storm water and combined sewer discharges to the watersheds of the City of Philadelphia.
